# HELLO and WELCOME

---

I specialise in taking beautiful images of people and dogs. Every session varies - so I can give the best service and experience. After 10 years in photography I still get very excited when planning a new shoot. For me to get that magical expression in a magazine style look is what I strive for every time. I take great care matching colours and outfits with the different backgrounds - for everything to look its best and give that high quality feel in the images. I've been called the posing expert ! as I can pose anyone, any shape, any age, to their advantage.

I have a small studio in Watchfield, Somerset where all my shoots take place. I use professional camera's and equipment to produce high quality photography. Children find these session fun - teenagers get a confidence boost - and adults get to feel good about how they look again ( lets be honest most adults have been hiding from the camera. )

FAMILY  
Where  
life begins  
and love  
never ends.

# what to expect

.....♥.....

One of the great things that you can expect from a session with me is definitely a fun experience to remember. Feel free to ask me any questions you may have, I'm always happy to help.

## before

All sessions come with an in person or-phone consultation so we can have a chat about what sort of groupings and individual photos you want and get to know your familys needs and personality. We can chat about what to wear, your goals and ideas for your portrait session. If you prefer something in studio or on location - I'm totally open to ideas!

Once you have decided you want to go ahead, we'll get the date booked in.

## during

On the day of your session, we'll meet at the agreed time and get the fun started ! We will shoot for up to 2 hours, depending on ideas.

Don't worry about anything - I'll be there to pose and direct you looking your best.

Children are unpredictable...that's what makes them so lovable, but if your child is not in good spirits on the day I totally understand! There is no rush. I can take as much time as needed to get your little one used to the camera so they feel relaxed, safe and comfortable.

## after your session

After your photo shoot, I'll pick out 25 - 30 of your best images and edit them. I believe in quality over quantity. Within 14 days of your session, I will then book in a personal ordering session. We can go through all your photos and you can see first hand the beautiful print product options available.

There is no minimum order - you buy what you like.

Online galleries are not available.

.....♥.....

*"Words are not enough to express the unconditional love  
that exist between a mother and a daughter."*

# What to wear

## *Tips & Suggestions*

~ Knowing what colours to wear for family photo's can be tricky. You can accomplish a cohesive look without every family member wearing the exact same outfit. By selecting a colour scheme and using hues that complement each other, you can achieve a more natural look across the board.

~ Pick one main colour and then add softer neutral tones to accent and complete your colour scheme. Muted patterns like checks and strips are fine - but avoid really strong patterns and logos.

Some examples are

Neutral colours - **BLACK, GREY, WHITES, CREAMS, BEIGE, KHAKI & DENIM**

Main colours - **REDS, GREENS, ORANGES or PINKS, PLUMS, YELLOWS, BLUES & BROWNS**

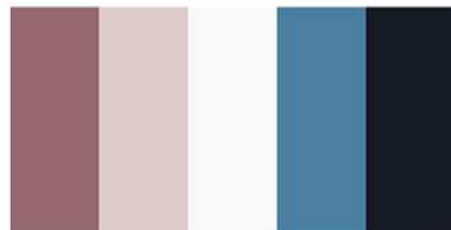

## Tips & Suggestions

- ~ First decide on the tone - **CASUAL OR SMART**
- ~ Select outfits that will make for a timeless portrait. Styles come and go but, your photos are forever.
- ~ Select clothes you feel good and comfortable in.
- ~ You are welcome to bring a second outfit to change into for smaller individual group shoots or any individual portraits.
- ~ Try to pick outfits with different neck & sleeve lines and textures - to add an element of interest to your photographs -this will also stop it looking like a uniform.
- ~ Fitted clothes for photographs are so much better for every body shape - baggy clothes can add pounds to your photos. Better to add layers on top if you feel self conscious about your arms/ stomach/ bust line etc. - like a jacket, scarf or cardigan.
- ~ Accessories are great style pieces to add to your individual outfits and can even tie family members outfits together.
- ~ Remember to pick out matching socks and shoes

## *Tips & Suggestions in action*

~ Different neck & sleeve lines and textures.

~ Pick a tone and try to match it in that tonal range.

~ Muted pattern like checks and strip is fine - **avoid really strong patterns and logos.**

~ Pick clothes you like and feel good in.

### Couples

- ~ Casual pastel colours with jeans.
- ~ All the colours match - nice when the jeans are a slightly different colour as well - it matches but don't look like a uniform.
- ~ Different textures and some fun details - hat, fur or the hood & knitted pull - over.
- ~ The pattern in the shirt is not too busy.

### Brothers

- ~ Block colours but the opposite end of the scale with white & black.
- ~ Different neck lines and sleeve lengths.

## Large extended family photo shoots

Your family is changing and growing every year. Let's celebrate it!

# FAMILY

*today's little moments  
become tomorrow's precious memories.*

Outdoor sessions are great for families with younger children- to get some very natural photos of the children and then add a few family portraits at the end.. This works well for children that are not going to want to sit in front of the studio light, but running round in the park playing they can do that all day.

# PRICING

studio susanne photography
